

Dr. Peter Lapner

“Diagnostic Accuracy of Synovial Biopsy for Implant-Related Shoulder Infections”

Dr. Peter Lapner received an award for his proposal which focuses on a promising approach to overcome great difficulties in pre-operative diagnosis of different types of infections that, if undiagnosed, can have devastating and long-term effects after shoulder repair or replacement surgery. Dr. Lapner is an Assistant Professor at the University of Ottawa, and graduate of the University of Toronto Medical School, and has completed fellowships at the University of Ottawa, University of British Columbia, and visiting fellowships in France and Switzerland.
