

**J. EDOUARD SAMSON AWARD
“OUTSTANDING CANADIAN ORTHOPAEDIC RESEARCHER”**

APPLICATION GUIDELINES

DEADLINE FOR SUBMISSION

October 31, 2017

Decisions will be communicated in early 2018.

Please read this document in its entirety before submitting application.

The Canadian Orthopaedic Foundation invites application for the J. Edouard Samson Award for career orthopaedic research.

Description

The premier award for orthopaedic research in Canada, the J. Edouard Samson Award, recognizes the best career orthopaedic research over a period of five (5) years or more at a Canadian centre. This \$30,000 award is intended to promote further research by the recipient. The recipient will present his/her research at the Annual General Meeting of the Canadian Orthopaedic Association (presentation opportunity to be determined). The award consists of an educational grant and a personal research grant to be used by the recipient at the Canadian institution where he/she currently resides.

This award is decided based on review and recommendation by the Canadian Orthopaedic Foundation's Research Committee to the Canadian Orthopaedic Foundation's Board of Directors.

Deadline for applications: October 31, 2017.

Decisions will be communicated in early 2018.

Qualifications and Restrictions:

1. Applicant must be a Canadian citizen or landed immigrant.
2. Applicant must be a member, or an associate member, of the Canadian Orthopaedic Association, or a member of the Canadian Orthopaedic Research Society.
3. Applicant must be working in a Canadian orthopaedic centre both at the time of application and at the award's receipt.
4. Eligibility typically extends to fifteen (15) years after the applicant obtains his or her fellowship in orthopaedic surgery from the Royal College of Surgeons of Canada, or completion of a **subsequent** research fellowship, MSc or PhD.
5. The research must be a significant body of work that has taken place over approximately five (5) years at a Canadian centre.

Application Procedures for Samson Award

The Samson Award recognizes a body of completed work therefore there is no application form. To request consideration for the Samson Award, submit the following, noting the quality of each of these components is considered equally:

1. A two-page cover letter that outlines: the evolution of the research hypothesis; most significant research observation; and the clinical significance and application of this research.
2. The five (5) (maximum) most relevant peer-reviewed papers.
3. A complete CV (CIHR format or other).
4. A letter signed by the applicant, the department head, and the dean or designate of the university, containing the following statement: *“The work in the attached research publication entitled [enter summary title of your research] represents novel research by the applicant and has been appropriately reviewed for conflicts of interest and ethical concerns.”*

Items noted above should be submitted **electronically** to the Canadian Orthopaedic Foundation at research@canorth.org. The email subject line should state: Samson Application – [Last Name]

For questions or concerns, please email research@canorth.org or call 416-410-2341 or 1-800-461-3639 Ext. 221.

Disbursement of Award:

The successful applicant is expected to arrange the method of funds disbursement through the Canadian Orthopaedic Foundation. If funds have been awarded but arrangements have not been made for payout of these funds by March 31st of the year the award is given, the funds will revert to the Foundation.

The \$30,000 Award may be used as follows:

- Educational Grant – a minimum of \$5,000 to be used specifically by the recipient for musculoskeletal education, and in a manner that aligns with the Canadian Orthopaedic Foundation’s mission – to achieve excellence in bone & joint health and mobility by advancing musculoskeletal research, education and care – including, but not limited to:
 - Travel costs for the recipient to attend an orthopaedic educational meeting, within Canada, for the purpose of learning or presenting (for flight purchases, tickets must be economy only)
 - Purchase of research/educational computer equipment to support the recipient’s orthopedic career/research.
 - Recipient membership fees for the Canadian Orthopaedic Association, or other orthopaedic scholarly groups.
- Personal Research Grant – a minimum of \$22,500 to be used by the recipient at the Canadian institution where he/she currently resides. This award is intended to promote further research by the recipient – either for the successful project for which he/she applied or for new musculoskeletal research project(s). All costs of research projects are allowable as outlined under the University policy where the applicant resides, including indirect (overhead) costs if applicable. Where overhead costs are included, the rate should be the COF’s standard rate of 15%, or the University’s standard rate, if lower.

Administration and Timing:

- The start date of the Samson Award will be the date the award is issued.
- The end date will be the Canadian Orthopaedic Foundation’s fiscal year end (March 31st) two years from the start date. (For example, the start date for the 2017 award would be at or around March 1, 2018 and end March 31, 2020).
- A high-resolution headshot of the recipient, a short bio (approximately 100 words), and a non-technical summary of the body of work for use in the Foundation’s public material must be submitted by the recipient within four (4) weeks following notification of the award.
- The Samson Award recipient will recognize the Canadian Orthopaedic Foundation, as well as any other applicable sponsor(s), in his/her presentation at the Canadian Orthopaedic Association Annual Meeting. All relevant logos and other information will be provided to the recipient for use.
- Educational Grant:
 - A financial report from the institution holding the grant is to be submitted to the Foundation upon (a) complete spend of the grant, or (b) twelve (12) months from the date of grant award, and again twenty-four (24) months from the date of grant award, if applicable.
- Personal Research Grant:
 - A written progress report of the work carried out through the utilization of the grant and a financial report from the institution holding the grant are to be submitted to the Foundation twelve (12) months from the date of grant award.
 - Final financial and written scientific reports are to be submitted to the Foundation twenty-four (24) months from the date of the grant award indicating what has resulted from grant support, future directions of the research project and any other significant information.
- It is expected that funds awarded will be spent as allocated within the twenty-four (24) month period. If funds are remaining after this time, an explanatory request for an extension should be included with the final written report. Extension requests will be decided by the Research Committee based explanation provided. If no explanation is provided nor an extension requested, the remaining funds are to revert back to the Foundation.
- The Canadian Orthopaedic Foundation is a public charitable organization funded by donor contributions and as such informs donors and other interested parties about its awarded research grants and awards.
