

Hans J. Kreder
Member, Board of Directors
Canadian Orthopaedic Foundation

Hans J Kreder MD, MPH, FRCS(C)

Dr. Kreder is a Professor of Orthopaedic Surgery and Health Policy Evaluation and Management at the University of Toronto. He has a subspecialty practice at Sunnybrook Health Sciences Centre in pelvic trauma and hip and knee joint replacement.

Dr. Kreder's main research interests involve the measurement of function and other outcomes following traumatic musculoskeletal injuries, arthritic conditions and metastatic disease, as well as policy issues regarding access to care and the effect of provider experience and volume on patient outcome. He was the first recipient of the Marvin Tile Chair in Orthopaedic Surgery, and he is an Adjunct Scientist at the Institute for Clinical and Evaluative Sciences. He works with the Core Faculty, Clinical Epidemiology Program, University of Toronto. He is a former AO Trustee representing Canada, and a member of AO Trauma North America.
